

FQA#5 – I have very little time to participate. How would I get enough out of my membership?

- You would receive regular updates on specific industry related issues
- You would have the opportunity to influence the decisions made on behalf of the industry
- You would be privy to pertinent information on government changes, updates, programs as soon as they become available
- You would find the guest speakers at our meetings interesting with information that is pertinent to our industry
- All our members who attend our meetings also lead busy lives, but they have the ability to network with others, as their time allows. You may find it easier to pick up the phone and speak to someone who may have the same issues or concerns
